In keeping with the democratic ideals of the nation it is desired that as far as possible all organizations march in the parade. Automobiles will be provided for some organizations whose members are not at an age that prohibits their marching, and also for some women's organizations.

Other organizations or individuals who desire to parade in automobiles will form in the first division of the parade which will be on Fairmont avenue extending back from Tenth street. To avoid congestion on the Main thoroughfare it is suggested that all automobiles going to the place of formation go out either Gas-

ton or Virginia avenues to Twelfth or Thirteenth streets and come into the column from the rear.

All automobiles units must go into the line at the place designated ready to move at the time designated. Machines will not be permitted to come into the line from any of the side streets. This is a safety first measure and we are confident our wishes will be respected.
